

Please do not allow regulations letting new LPFM stations take priority over existing FM translators! I am an avid listener of KLOVE radio station, which inspires and enlightens me and hundreds of thousands of listeners daily. It keeps me posted on local events in my community in which I can participate for the benefit of the local AND THE WORLDWIDE community. KLOVE is one of the only radio stations that truly is safe for the whole family, bringing Christian music and values to our children and everyone who listens. The whole country needs more of this kind of wholesome message. Please don't take away my signal!!!
